Thanks, Michele. Found a hard copy at the office this morning, my admin will send it to you today. Dan should have the CD with the updated pages on its way to you by now.

I work for Shell Upstream Americas, the new name for Shell Exploration & Production. C6 doesn't have any employees.

Hi DaMonica,

Well that is good to hear that you are recovering well.

The hard copy is not super urgent - i will use my copy to send to the library, i just need it replaced so we have a copy for the files.

A question came up about you and your title since you are the contact person - Your business card reads Shell Exploration & Production company - is that right? or do you work for C6?

Thanks, Michele

Hi Michele. I am recovering nicely at home. Drug free. I will check with Dan tomorrow regarding the CD. As far as the Aug 2009 hard copy goes, Dan may have to provide that as well. I have several extra hard copies at my desk, but I believe they are all from July 2009. Will confirm this in the morning.

Thanks Robin,

Would you please proceed with getting us an electronic version of the revised UIC permit application to include the three revised pages on the proposed testing (attached below)? We have a CD with your application, but since you are replacing a few pages we need a new CD.

I need it by Tuesday of next week - July 20. I am copying Dan Collins because i think DaMonica mentioned she was going to work with him to provide this.

Please let me know if you have any questions.

Sincerely,

Michele

Michele,

Please disregard my previous attachments and accept the ones in this e-mail. I have sent the un-edited ones in a hurry to fix the problem of attachments.

Regards

Robin Ozah
